

PUBLIC NOTICE

SPINDLETOP EXPANSION PROJECT

FEDERAL ENERGY REGULATORY COMMISSION • DOCKET NO. CP25-167

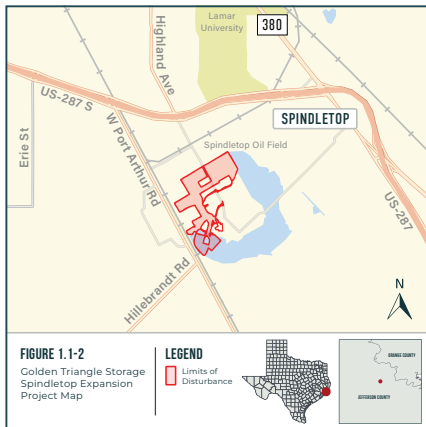

On March 31, 2025, Golden Triangle Storage, LLC (GTS or Golden Triangle), which is owned by Caliche Development Partners III, filed an application with the Federal Energy Regulatory Commission (FERC) for a Certificate of Public Convenience and Necessity regarding the proposed Spindletop Expansion Project in FERC Docket No. CP25-167 (the Application). The Application seeks approval for GTS to construct, install, own, operate, and maintain four new underground natural gas storage caverns, compression, and other appurtenant facilities to the GTS Existing Storage Facilities.

The Spindletop Expansion Project would add approximately 30.75 billion cubic feet of new natural gas storage capacity to the GTS Existing Storage Facilities and includes the following:

- Four new salt dome natural gas storage caverns (Cavern 8, Cavern 10, Cavern 11, and Cavern 12).
- Temporary drilling and permanent well pad sites for the new caverns.
- Injection/withdrawal natural gas pipelines, raw water supply piping, brine return piping, instrument air piping, conduit runs for electrical and control systems, gas dehydration and associated equipment, heaters, metering, blow down flare, and other process control equipment.
- A new compressor building housing 55,000 hp of spark-ignited reciprocating piston engine-driven compression located in the existing GTS Central Compressor Station.
- New service corridors and permanent access roads.

All the proposed facilities comprising the Spindletop Expansion Project will be located within the existing GTS Central Storage Site and an adjacent leased property. The injection and withdrawal capability for each of the new caverns is up to 625 million standard cubic feet per day. The Spindletop Expansion Project is needed to satisfy a growing demand for natural gas storage in the Gulf Coast region.

The FERC Notice of Application will be mailed to affected landowners; municipal, state, and federal governments and agencies involved in the Spindletop Expansion Project.

A copy of the Application and related resource reports are on file at the following public libraries:

- Theodore Johns Library
4255 Fannett Road, Beaumont
- Kountze Public Library
800 E. Redwood Avenue, Kountze
- Orange Public Library
220 N. Fifth Street, Orange
- Main Downtown Library
801 Pearl Street, Beaumont
- Elmo Willard Library
3590 E. Lucas Drive, Beaumont
- R.C. Miller Memorial Library
1605 Dowlen Road, Beaumont

For further information on becoming an intervener in the FERC process and/or to obtain FERC's pamphlet titled "An Interstate Natural Gas Pipeline on My Land? What Do I Need to Know?" visit FERC's website at www.ferc.gov or contact FERC's Office of External Affairs at 1-866-208-3372 or by email at customer@ferc.gov. To receive assistance with disputes involving the construction and operation of FERC jurisdictional projects, landowners should contact FERC's Landowner Helpline toll-free at 1-877-337-2237 or by email at LandownerHelp@ferc.gov.
